IF THE GUN FITS SHOOT IT

Are you sure your gun fits? If in doubt, spend the price of three pheasants and have your gun fit checked by the most respected gun fitters in the United Kingdom.

Our gun fitters are undertaking fits every day of the week. They are highly trained and practised in achieving the perfect fit to ensure a comfortable and accurate shot placement.

Gun fitting is like tailoring a suit. Once you have the perfect fit, not only will you look your best, but you will feel your best too ready in time for your next season shoot day.
